

Smullin Center

on the campus of

Asante Rogue Regional Medical
Center

2825 E. Barnett Road, Medford,
Oregon 97504

Tuition:

Physicians

\$200 for 2-day registration
or \$125 for 1-day registration

Multidisciplinary / Other

\$170 for 2 day registration
or \$100 for 1-day registration

Early Bird Tuition:

Save 10% if registered before
March 15, 2016

Late Fee / Walk-In Tuition:

Add \$50 to rate if registered
after May 15, 2016.

Registration is limited to 300

CME / CEUs available.

For Information call:

Continuing Medical Education

541-789-4837

Purpose: The appropriate treatment of chronic pain is an evolving, and sometimes controversial, practice. This conference will present factual information concerning the use of opioids in Oregon, community effects of opioid prescribing, current best practices for the treatment of chronic pain.

5th Annual

A Thoughtful Approach to Pain Management

May 20-21, 2016

Friday and Saturday

Target Audience: All Health Care Professionals

Buprenorphine Pre-Conference Training on Thursday, May 19, 2016, FREE but limited to 30 providers; contact Marie Payment for registration information (payment@ohsu.edu); see additional information on page 3

Friday, May 20, 2016

7:50 – 8:00 a.m.	Introductions / Housekeeping	<i>Jim Shames, MD</i>
8:00 – 8:50 a.m.	How We Got Here, Big Pharma’s Contribution	<i>Andrew Kolodny, MD</i>
8:50 – 9:30 a.m.	The Evolution of the Science of Pain: From the Gate Theory to Central Sensitization Syndrome	<i>Jane Ballentyne, MD</i>

Committee Members Include:

- Jim Shames, MD, Co-Chair
- Lee Glass, MD, JD, Co-Chair
- Paul Coelho, MD
- Laura Heesacker, LCSW
- John Kolsbun, MD
- Peter Rothfels, MD
- Cristi Skye, RN

Buprenorphine Pre-Conference Training on Thursday, May 19, 2016

OHSU Addiction Medicine faculty will be conducting a training on May 19th, 2016 to qualify physicians to obtain a Drug Enforcement Agency waiver to prescribe buprenorphine. Buprenorphine is a partial opioid agonist (Schedule III) that is safe for use in primary care. It is highly effective for treatment of opioid use disorder and has a lower risk of overdose than other opioids. Currently, patient demand for buprenorphine greatly exceeds the number of Oregon providers trained to prescribe this safe and effective treatment. The Drug Addiction Treatment Act of 2000 specifies several ways in which physicians can qualify to prescribe and dispense buprenorphine in their offices for the treatment of opioid use disorder. Completion of a "Half and Half" course meets the 8 hour requirement specified in the Act. One "half" of the course consists of 3.75 hours of on your own training containing five online modules that provide background on the treatment of opioid use disorder, and the second "half" of the course consists of 4.25 hours of live training. The online modules will need to be completed prior to attending the live training. After completing the two courses, the physician will be eligible to apply for the DEA waiver to prescribe buprenorphine in the outpatient setting.

The training is limited to 30 physicians. Currently nurse practitioners or other allied health professionals are not allowed to prescribe buprenorphine, so this course is limited to physicians. You do not need to be a primary care provider in order to participate. The cost of the course is waived due to a legal settlement between INSYS pharmaceutical company and the Oregon Attorney General's office.

If you are interested in registering for this course, please contact Marie Payment (payment@ohsu.edu). Early registration is recommended due to limited space.
